

SUBJECT INDEX TO VOLUME 66

Subject entries for all material in the JOURNAL appear in this index. Entries from the JOURNAL departments are identified as follows: Book Reviews—(BR); Clinical Reports—(CR); Correspondence—(CO); Editorial Views—(EV); Laboratory Reports—(LR); Original Article—(OA); Medical Intelligence—(MI); Special Article—(SA); Reports of Scientific Meetings—(SM).

A

- Accidents, *See under* Complications
- Acetylcholine receptors, *See under* Neuromuscular junction
- ACTH, *See under* Brain; Hormones
- Acyanotic heart disease, *See under* Heart
- Adenosine triphosphate, *See under* Anesthetic, techniques, hypotension, induced
- Adhesive dressing, *See under* Equipment
- Adrenal hormones, *See under* Hormones
- Adrenocortical hormones, *See under* Hormones
- Adrenocorticotrophic hormones, *See under* Hormones
- Adult respiratory distress syndrome, *See under* Complications
- Aerosols, *See under* Pharmacology
- Afterload, *See under* Heart
- Age factors
 - preterm infants, postoperative apnea in (OA) [Kurth, Spitzer, Broennie & Downes], 483
- AIDS, *See under* Complications
- Air embolism, *See under* Embolism
- Airway
 - bronchial rupture
 - submucosal epiglottic emphysema complicating (CR) [Sacco & Halliday], 555
 - congenital tracheal stenosis
 - in adult, failure of double-lumen endobronchial tube placement in (CR) [Saito, Dohi & Tajima], 83
 - double lumen tube
 - and hypoxia during one-lung ventilation (CR) [Maguire & Spiro], 830
 - guinea pig
 - smooth muscle, effects of H₂-receptor antagonists (OA) [Koga, Iwatsuki & Hashimoto], 181
 - obstruction
 - and hypoxia during one-lung ventilation (CR) [Maguire & Spiro], 830
 - postoperative, due to paradoxical vocal cord motion (CR) [Hammer, Schwinn & Wollman], 686
 - in recovery room patient (CR) [Keamy, Cadieux, Kofke & Kales], 232
 - unusual, with sarcoidosis (CR) [Wills & Harris], 554
 - smooth muscle
 - effects of H₂-receptor antagonists on (OA) [Koga, Iwatsuki & Hashimoto], 181
 - trachea
 - effects of H₂-receptor antagonists on (OA) [Koga, Iwatsuki & Hashimoto], 181
 - vocal cords
 - motion, paradoxical, postoperative complications due to (CR) [Hammer, Schwinn & Wollman], 686
- Alcohols, *See also under* Anesthetics; Enantiomers
- Alcuronium, *See under* Neuromuscular relaxants
- Aldosterone, *See under* Hormones

- Alfentanil, *See under* Analgesics; Anesthetics, intravenous; Pharmacokinetics
- Allergic reactions, *See under* Complications
- Allergy
 - periorbital edema after atracurium administration (CR) [Cohen & Frank], 431
- Alpha adrenergic receptors, *See under* Receptors; Sympathetic nervous system
- Alpha adrenergic receptors, agonist, *See under* Sympathetic nervous system
- Alpha₁- and alpha₂-adrenergic receptors, *See under* Sympathetic nervous system
- Alveolar carbon dioxide, *See under* Carbon dioxide
- Alveolar ventilation, *See under* Lung(s)
- American Association of Nurse Anesthetists, *See under* Organizations
- American Society of Anesthesiologists, *See under* Organizations
- c-Aminocaproic acid, *See under* Pharmacology
- Amiodarone, *See under* Heart; Sympathetic nervous system
- Amrinone, *See under* Pharmacology
- Analgesia
 - and effect of chronic subarachnoid bupivacaine infusion in dogs (EV) [Coombs & Fratkin], 724
 - and effect of chronic subarachnoid bupivacaine infusion in dogs (OA) [Kroin, McCarthy, Penn, Kerns & Ivankovich], 737
 - epidural anesthesia and, in high-risk surgical patients (EV) [McPeck], 723
 - epidural anesthesia and, in high-risk surgical patients (OA) [Yeager, Glass, Neff & Brinck-Johnsen], 729
 - epidural clonidine produces, but not hypotension, in sheep (OA) [Eisenach, Dewan, Rose & Angelo], 496
 - postoperative
 - epidural ketamine or morphine for (CR) [Ravat, Dorne, Baechle, Beaulaton, Lenoir, Leroy & Palmier], 819
- See also under* Behavioral effects
- Analgesics
 - alfentanil
 - population pharmacokinetics of (OA) [Maitre, Vozeh, Heykants, Thomson & Stanski], 3
 - epidural
 - epidural anesthesia and, in high-risk surgical patients (EV) [McPeck], 723
 - epidural anesthesia and, in high-risk surgical patients (OA) [Yeager, Glass, Neff & Brinck-Johnsen], 729
 - fentanyl
 - in rat: analgesia and other *in vivo* pharmacologic effects (OA) [van den Hoogen & Colpaert], 186
 - ketamine
 - and morphine, respiratory interactions of (OA) [Bourke, Malit & Smith], 153
 - mepiridine
 - in rat: analgesia and other *in vivo* pharmacologic effects (OA) [van den Hoogen & Colpaert], 186

SUBJECT INDEX TO VOLUME 66

- Amiodarone, *See under* Heart; Sympathetic nervous system
- Amrinone, *See under* Pharmacology
- Analgesia
 - and effect of chronic subarachnoid bupivacaine infusion in dogs (EV) [Coombs & Fratin], 724
 - and effect of chronic subarachnoid bupivacaine infusion in dogs (OA) [Kroin, McCarthy, Penn, Kerns & Ivankovich], 737
 - epidural anesthesia and, in high-risk surgical patients (EV) [McPeck], 723
 - epidural anesthesia and, in high-risk surgical patients (OA) [Yeager, Glass, Neff & Brinck-Johnsen], 729
 - epidural clonidine produces, but not hypotension, in sheep (OA) [Eisenach, Dewan, Rose & Angelo], 496
 - postoperative
 - epidural ketamine or morphine for (CR) [Ravat, Dorne, Baechle, Beaulaton, Lenoir, Leroy & Palmier], 819
- See also under* Behavioral effects
- Analgesics
 - alfentanil
 - population pharmacokinetics of (OA) [Maitre, Vozeh, Heykants, Thomson & Stanski], 3
 - epidural
 - epidural anesthesia and, in high-risk surgical patients (EV) [McPeck], 723
 - epidural anesthesia and, in high-risk surgical patients (OA) [Yeager, Glass, Neff & Brinck-Johnsen], 729
 - fentanyl
 - in rat: analgesia and other *in vivo* pharmacologic effects (OA) [van den Hoogen & Colpaert], 186
 - ketamine
 - and morphine, respiratory interactions of (OA) [Bourke, Malit & Smith], 153
 - mepiridine
 - in rat: analgesia and other *in vivo* pharmacologic effects (OA) [van den Hoogen & Colpaert], 186

- morphine**
and ketamine, respiratory interactions of (OA) [Bourke, Malit & Smith], 153
and oxygen saturation during preinduction placement of catheters in cardiac surgery patient (CR) [Hensley, Dodson, Martin, Stauffer & Larach], 834
in rat: analgesia and other *in vivo* pharmacologic effects (OA) [van den Hoogen & Colpaert], 186
- narcotic**
and epidural anesthesia in high-risk surgical patients (EV) [McPeck], 723
and epidural anesthesia in high-risk surgical patients (OA) [Yeager, Glass, Neff & Brinck-Johnsen], 729
- hydromorphone**
epidural: double-blind comparison with intramuscular hydromorphone for postcesarean section analgesia (CR) [Henderson, Matthew, Cohen & Avram], 825
- sufentanil**
in rat: analgesia and other *in vivo* pharmacologic effects (OA) [van den Hoogen & Colpaert], 186
- Anaphylatoxins, See under Immunology**
- Anatomy**
brachial plexus
sheath, implications for anesthesia (EV) [Selander], 726
sheath, implications for anesthesia (OA) [Partridge, Katz & Benirschke], 743
- Anesthesia**
cardiac
myocardial circulatory and metabolic effects of, during coronary artery surgery (OA) [O'Young, Mastrocostopoulos, Hilgenberg, Palacios, Kyritsis & Lappas], 653
pump oxygenator
Bentley-10, isoflurane-induced failure of (CO) [Maltry & Eggers], 100
- cardiovascular**
coronary vasodilation by halothane *versus* isoflurane (OA) [Bollen, Tinker & Hermesmeyer], 748
critical regional cerebral blood flow during isoflurane anesthesia for (OA) [Messick, Casement, Sharbrough, Milde, Michenfelder & Sundt], 344
- complications**
hyperthermia as complication of extracorporeal shock-wave lithotripsy (CR) [Higgins, Miller & Roberts], 389
- depth**
and naloxone therapy in spinal trauma (CR) [Benthuyssen], 238
- epidural**
produces antinociception, but not hypotension, in sheep (OA) [Eisenach, Dewan, Rose & Angelo], 496
first wartime use of (CO) [Aldrete & Wright], 93
- general**
facial paralysis after (CO) [Glauber], 711
facial paralysis after (CO) [Speilberger], 710
with IPPV, fiberoptic assisted tracheal intubation under (CO) [Williams], 853
- human factors in**
breaking the chain of accident evolution (SA) [Gaba, Maxwell & DeAnda], 670
- induction**
corneal abrasion during (CO) [Watson & Moran], 440
- neurosurgical**
critical regional cerebral blood flow during isoflurane anesthesia for (OA) [Messick, Casement, Sharbrough, Milde, Michenfelder & Sundt], 344
does isoflurane aggravate regional cerebral ischemia during (EV) [Michenfelder], 451
isoflurane in, effect on cerebral blood flow and metabolic rate of oxygen (OA) [Madsen, Cold, Hansen & Bardrum], 332
temporary focal ischemia, comparison of cerebral protective effects of isoflurane and barbiturates during (OA) [Nehls, Todd, Spetzler, Drummond, Thompson, Johnson, Mendenhall, Barstow, Carmichael, Young, Fifield & Jones], 453
- obstetric**
and anesthetic management of parturient receiving amiodarone (CR) [Koblin, Romanoff, Martin, Hensley, Larach, Stauffer & Luck], 551
bupivacaine influence on second stage of labor and delivery method in nulliparous women (OA) [Chestnut, Vandewalker, Owen, Bates & Choi], 774
cesarean delivery, precordial ultrasonic monitoring during (CR) [Malinow, Naulty, Hunt, Datta & Ostheimer], 816
cesarean section
in Charcot-Marie-Tooth disease (CR) [Brian, Boyles, Quirk & Clark], 410
venous air embolism and (CO) [Robinson & Albin], 93
venous air embolism and (CO) [Younker, Rodriguez & Kavanagh], 94
ECG monitoring of mother and fetus during (CO) [Van Zundert, Vaes & De Wolf], 584
epidural, for elective cesarean section, metoclopramide for prevention of nausea and vomiting during (CR) [Chestnut, Vandewalker, Owen, Bates & Choi], 563
epinephrine should not be used with local anesthetics for epidural anesthesia in pre-eclampsia (CO) [Holler], 578
epinephrine should not be used with local anesthetics for epidural anesthesia in pre-eclampsia (CO) [Robinson], 577
is midazolam desirable for sedation in ? (CO) [Heyman & Salem], 577
lidocaine in, effect on asphyxial responses in mature fetal lamb (OA) [Morishima, Santos, Pedersen, Finster, Tsuji, Hiraoka, Arthur & Covino], 502
and limitations of epinephrine as marker of intravascular injection in laboring women (CR) [Leighton, Norris, Sosis, Epstein, Chayen & Larijani], 688
survey, concerns regarding (CO) [McFadden], 721
survey, concerns regarding (CO) [Zauder], 721
test dose of, epidural, epinephrine-containing (CO) [Cartwright], 572
test dose of, epidural, epinephrine-containing (CO) [Chadwick, Benedetti, Ready & Williams], 571
test dose of, epidural, epinephrine-containing (CO) [Oyston & Prince], 571
- ophthalmic**
and dental rolls for eye operations (CO) [Kataria & Fleming], 437
- pediatric**
comparison of alfentanil pharmacokinetics in children and adults (OA) [Meistelman, Saint-Maurice, Lepaul, Levron, Loose & MacGee], 13
difficult neonatal fiberoptic intubation in, ureteral catheter in (CO) [Gouverneur, Veyckemans, Licker, Verellen & Gribo-mont], 436
effects of fentanyl on peripheral and cerebral hemodynamics in (OA) [Yaster, Koehler & Traystman], 524
end-tidal P_{CO_2} monitoring in, in ventilation with partial rebreathing or non-rebreathing circuit (CR) [Badgwell, Heavner, May, Goldthorn & Lerman], 405
epidural (CO) [Dalens & Haberer], 714
epidural (CO) [Ecoffey], 715

- femoral artery monitoring in (CR) [Glenski, Beynen & Brady], 227
- in Jeune's syndrome (CR) [Borland], 86
- with ketamine or halothane, determinants of end expiratory volume in (OA) [Shulman, Bar-Yishay, Beardsmore & Godfrey], 636
- monitoring bilateral breath sounds in (CO) [Schwartz], 711
- morphine pharmacokinetics in early infancy (OA) [Lynn & Slatery], 136
- neonatal, dose response of fentanyl in (CR) [Yaster], 433
- percutaneous internal jugular vein catheterization in, risk factors associated with (CR) [Damen], 558
- and periorbital edema after atracurium administration (CR) [Cohen & Frank], 431
- preterm infants, postoperative apnea in (OA) [Kurth, Spitzer, Broennie & Downes], 483
- scented masks in (CO) [Hinkle], 104
- scented masks in (CO) [Yamashita & Murata], 105
- in thoracopagus conjoined twins (CR) [Hoshina, Tanaka, Obara & Iwai], 424
- transient right-to-left shunt during, hypoxemia from, during emergence from anesthesia (CR) [Moorthy, Dierdorf, Krishna, Caluwell & Alcorn], 234
- video induction: CO₂ wars (CO) [Audenaert & Pavlin], 573
- risk management**
- breaking the chain of accident evolution (SA) [Gaba, Maxwell & DeAnda], 670
- thoracic**
- dangers of improvised underwater seal for CPAP oxygenation during one-lung ventilation in (CO) [Cook & Wilson], 707
- Anesthesia equipment, See under Equipment**
- Anesthesia machine, See under Equipment**
- Anesthesia records, See under Records, anesthesia**
- Anesthesiologists**
- implications of human T-cell lymphotropic virus type III (HTLV-III) infection on (RA) [Kunkel & Warner], 195
- reference to, proper terminology for (CO) [Dhamee], 255
- Anesthesiology**
- advances in noninvasive cardiovascular imaging: implications for anesthesiologist (RA) [Cahalan, Litt, Botvinick & Schiller], 356
- Anesthetic leak, See under Complications**
- Anesthetic potency, See under Potency**
- Anesthetic techniques**
- arterial puncture**
- simpler tidy adjunct to (CO) [Stevens], 449
- axillary**
- functional anatomy of brachial plexus sheath and (EV) [Selander], 726
- functional anatomy of brachial plexus sheath and (OA) [Partridge, Katz & Benirschke], 743
- three methods compared, in approach to brachial plexus blockade for upper extremity surgery (CR) [Goldberg, Gregg, Larjani, Norris, Marr & Seltzer], 814
- brachial plexus**
- for upper extremity surgery, comparison of three methods of axillary approach to (CR) [Goldberg, Gregg, Larjani, Norris, Marr & Seltzer], 814
- caudal**
- in comparative study for control of post-orchiopey pain in pediatric ambulatory surgery (CR) [Hannallah, Broadman, Belman, Abramowitz & Epstein], 832
- double lumen tube intubation**
- in hypoxia-induced pulmonary vasoconstriction in human lung (OA) [Carlsson, Bindsløv & Hedenstierna], 312
- endotracheal**
- guided, in operating room using lighted stylet (CO) [Mehta], 105
- epidural**
- and analgesia in high-risk surgical patients (EV) [McPeck], 723
- and analgesia in high-risk surgical patients (OA) [Yeager, Glass, Neff & Brinck-Johnsen], 729
- blood distribution under, and venoconstrictors (OA) [Stanton-Hicks, Höck, Stühmeier & Arndt], 317
- in children (CO) [Dalens & Haber], 714
- in children (CO) [Ecofey], 715
- in comparative study for control of post-orchiopey pain in pediatric ambulatory surgery (CR) [Hannallah, Broadman, Belman, Abramowitz & Epstein], 832
- continuous bupivacaine, influence of, on second stage of labor/delivery method in nulliparous women (OA) [Chestnut, Vandewalker, Owen, Bates & Choi], 774
- continuous, safety of (CO) [Fromme & Atchison], 94
- for elective cesarean section, metoclopramide for prevention of nausea and vomiting during (CR) [Chestnut, Vandewalker, Owen, Bates & Choi], 563
- with ketamine or morphine for postoperative analgesia (CR) [Ravat, Dorne, Baechle, Beaulaton, Lenoir, Leroy & Palmier], 819
- left ventricular function during, in patients with and without angina pectoris (OA) [Baron, Coriat, Mundler, Fauchet, Bousseau & Viars], 621
- and limitations of epinephrine as marker of intravascular injection in laboring women (CR) [Leighton, Norris, Sosis, Epstein, Chayen & Larjani], 688
- and neurologic dysfunction in postpartum patients caused by hypomagnesemia (CR) [Ravindran & Carrelli], 391
- in pre-eclampsia, epinephrine should not be used with local anesthetics for (CO) [Heller], 578
- in pre-eclampsia, epinephrine should not be used with local anesthetics for (CO) [Robinson], 577
- in reflex sympathetic dystrophy (CR) [Dirksen, Rutgers & Coolen], 71
- safe, continuous (CO) [Zylano], 94
- test dose, maternal heart rate changes with (CO) [Moore, Batra, Bridenbaugh, Brown, Carpenter, Hecker & Ramsey], 854
- epidural narcotic**
- hydromorphone: double-blind comparison with intramuscular hydromorphone for postcesarean section analgesia (CR) [Henderson, Matthew, Cohen & Avram], 825
- epidural opiates**
- in rat: analgesia and other *in vivo* pharmacologic effects (OA) [van den Hoogen & Colpaert], 186
- fiberoptic bronchoscopy**
- to properly site double lumen tube (CO) [Arai & Hatano], 581
- fiberoptic intubation**
- difficult neonatal, ureteral catheter as guide in (CO) [Gouverneur, Veyckemans, Licker, Verellen & Gribomont], 436
- and glottic closure following large doses of fentanyl (CO) [Aran-dia & Patil], 574
- hypotension, induced**
- adenosine triphosphate**
- alteration of blood flow distribution and vascular capacitance during (OA) [Hoka, Siker, Bosnjak & Kampine], 647

- nitroglycerin**
action on microcirculation (OA) [Endrich, Franke, Peter & Messmer], 605
alteration of blood flow distribution and vascular capacitance during (OA) [Hoka, Siker, Bosnjak & Kampine], 647
- nitroprusside**
action on microcirculation (OA) [Endrich, Franke, Peter & Messmer], 605
alteration of blood flow distribution and vascular capacitance during (OA) [Hoka, Siker, Bosnjak & Kampine], 647
- verapamil**
may not be drug of choice for control of hemodynamic changes during surgical excision of pheochromocytoma (CO) [Baraka, Usta, Yamut & Haroun], 705
- ilioinguinal/iliohypogastric**
in comparative study for control of post-orchiopey pain in pediatric ambulatory surgery (CR) [Hannallah, Broadman, Belman, Abramowitz & Epstein], 832
- intervertebral nerve**
a correction on dural cuffs (CO) [Gauntlett], 97
a correction on dural cuffs (CO) [Sosis], 97
- intrathecal morphine**
with combined spinal and general anesthetic in multiple sclerosis (CR) [Berger & Ontell], 400
- lumbar**
continuous, safety of (CO) [Fromme & Atchison], 94
and neurologic dysfunction in postpartum patients caused by hypomagnesemia (CR) [Ravindran & Carrelli], 391
safe, continuous (CO) [Zydanoff], 94
- obstetric**
and limitations of epinephrine as marker of intravascular injection in laboring women (CR) [Leighton, Norris, Sosis, Epstein, Chayen & Larijani], 688
- oro-tracheal**
guided, in operating room using lighted stylet (CO) [Mehta], 105
- pediatric induction**
video: CO₂ wars (CO) [Audenaert & Pavlin], 573
- rapid sequence intubation**
in patient with "full stomach", correct position of neck for (CO) [Goldberg], 588
- regional**
a correction on dural cuffs (CO) [Gauntlett], 97
a correction on dural cuffs (CO) [Sosis], 97
functional anatomy of brachial plexus sheath and (EV) [Selander], 726
functional anatomy of brachial plexus sheath and (OA) [Partridge, Katz & Benirschke], 743
for upper extremity surgery, comparison of three methods of axillary approach to (CR) [Goldberg, Gregg, Larijani, Norris, Marr & Seltzer], 814
- spinal**
and general anesthesia, in multiple sclerosis, intrathecal morphine with (CR) [Berger & Ontell], 400
subarachnoid block: two for the price of one? (CO) [Buchanan], 254
temporary paraplegia following, in patient with spinal cord arteriovenous malformation (CR) [Warner, Danielson & Restall], 236
and trunk skin temperature after sympathetic nerve block (CO) [Chamberlain], 446
and trunk skin temperature after sympathetic nerve block (CO) [Peters], 444
- subcutaneous opiates**
in rat: analgesia and other *in vivo* pharmacologic effects (OA) [van den Hoogen & Colpaert], 186
- sympathetic block**
early, no prophylactic effect of, on postherpetic neuralgia (CR) [Yanagida, Suwa & Corssen], 73
trunk skin temperature after (CO) [Chamberlain], 446
trunk skin temperature after (CO) [Peters], 444
- thoracic epidural**
hemodynamic effects of dopamine during (OA) [Lundberg, Norgren, Thomson & Werner], 641
- transtracheal ventilation**
easily assembled device for (CO) [Reich & Schwartz], 437
- Anesthetic-induced respiratory depression, See under Anesthetics, volatile**
- Anesthetics**
alcohols
secondary, anesthetic potencies of (OA) [Alifimoff, Firestone & Miller], 55
- gases**
nitrous oxide
allergy to, periorbital edema in, after atracurium (CR) [Cohen & Frank], 431
carcinogenic potential of (CO) [Baden & Mazze], 256
carcinogenic potential of (CO) [Frankel], 256
constricts epicardial coronary arteries without effect on coronary arterioles (OA) [Wilkowski, Sill, Bonta, Owen & Bove], 659
contamination, deletion of (CO) [Johnson], 257
and dysrhythmias (CR) [Roizen, Plummer & Lichtor], 427
effect on oxyhemoglobin dissociation curve and PO₂ measurements (LR) [Kambam & Holaday], 208
effects of halothane, enflurane and isoflurane on somatosensory evoked potentials during (OA) [Pathak, Amadio, Kalamchi, Scoles, Shaffer & Mackay], 753
has no place during oropharyngeal and laryngotracheal procedures (CO) [Shapiro & El-Baz], 447
has no place during oropharyngeal and laryngotracheal procedures (CO) [Simpson & Wolf], 448
is not indicated during closure of dura and cranium (CO) [Artru], 719
is not indicated during closure of dura and cranium (CO) [Shaken, Shapiro & Drummond], 720
in preoperative nausea and vomiting (OA) [Muir, Warner, Oxford, Buck, Harper & Kunkel], 513
in study of cerebral protective effects of isoflurane during temporary focal ischemia (OA) [Nehls, Todd, Spetzler, Drummond, Thompson, Johnson, Mendenhall, Barstow, Carmichael, Young, Fifield & Jones], 453
in study of inhibition of *d*-tubocurarine-induced histamine release (OA) [Kettlekamp, Austin, Downes, Cheek & Hirschman], 666
in study of isoflurane and aggravation of regional cerebral ischemia (EV) [Michenfelder], 451
and sufentanil, and fentanyl, compared in patients without cardiac disease (OA) [Clark, Meuleman, Liu, Zwanikken, Pace & Stanley], 130
- intravenous**
alfentanil
pharmacokinetics, in children and adults, compared (OA)

- [Meistelman, Saint-Maurice, Lepaul, Levron, Loose & Mac-Gee], 13
 population pharmacokinetics of (OA) [Maitre, Vozeh, Heykants, Thomson & Stanski], 3
- barbiturates**
 effects of, on functional residual capacity and ribcage/diaphragm contributions to ventilation (OA) [Bickler, Dueck & Prutow], 147
- diazepam**
 continuous epidural infusions of (CO) [Fromme & Atchison], 94
 and hypercarbic response to carbon dioxide (CO) [Bailey, Andriano, Stanley, Pace & Goldman], 582
 and hypercarbic response to carbon dioxide (CO) [Fee], 582
 safe, continuous epidural infusions of (CO) [Zylano], 94
- etomidate**
 abolishing pain on injection of (CO) [Melnick, Phitayakorn & McKenzie], 444
 effect on adrenocortical steroidogenesis (CR) [Fragen, Weiss & Molteni], 839
 for minor surgery, endocrinological changes following (OA) [Crozier, Beck, Schlaeger, Wuttke & Kettler], 628
 reversibly depresses human neutrophil chemiluminescence (LR) [Gelb & Lok], 60
- fentanyl**
 dose response of, in neonatal anesthesia (CR) [Yaster], 433
 effects on peripheral and cerebral hemodynamics in neonatal lambs (OA) [Yaster, Koehler & Traystman], 524
 glottic closure following large doses of (CO) [Arandia & Patil], 574
 neostigmine antagonism of vecuronium paralysis during (CR) [Dernovoi, Agoston, Barvais, Baurain, Lefebvre & d'Holander], 698
 and nitrous oxide, in comparative study in patients without cardiac disease (OA) [Clark, Meuleman, Liu, Zwanikken, Pace & Stanley], 130
 in study of cerebral protective effects of isoflurane during temporary focal ischemia (OA) [Nehls, Todd, Spetzler, Drummond, Thompson, Johnson, Mendenhall, Barstow, Carmichael, Young, Fifield & Jones], 453
 in study of esmolol in patients undergoing coronary artery bypass surgery (CR) [Harrison, Ralley, Wynands, Robbins, Sami, Ripley & Fullerton], 413
 in study of isoflurane and aggravation of regional cerebral ischemia (EV) [Michenfelder], 451
- ketamine**
 and morphine, respiratory interactions of (OA) [Bourke, Malit & Smith], 153
 for postoperative analgesia (CR) [Ravat, Dorne, Baechle, Beaulaton, Lenoir, Leroy & Palmier], 819
- methohexital**
 effects of, on functional residual capacity and ribcage/diaphragm contributions to ventilation (OA) [Bickler, Dueck & Prutow], 147
 for minor surgery, endocrinological changes following (OA) [Crozier, Beck, Schlaeger, Wuttke & Kettler], 628
- midazolam**
 is it desirable for sedation in parturients? (CO) [Heyman & Salem], 577
 for minor surgery, endocrinological changes following (OA) [Crozier, Beck, Schlaeger, Wuttke & Kettler], 628
- morphine**
 in early infancy (OA) [Lynn & Slattery], 136
 and ketamine, respiratory interactions of (OA) [Bourke, Malit & Smith], 153
- for postoperative analgesia (CR) [Ravat, Dorne, Baechle, Beaulaton, Lenoir, Leroy & Palmier], 819
 in renal failure (OA) [Chauvin, Sandouk, Scherrmann, Farinotti, Strumza & Duvaldestin], 327
- narcotics**
 and anesthetic effects of naloxone therapy in spinal trauma (CR) [Benthuyzen], 238
 and "stiff-baby" syndrome (CO) [Weinger], 580
- pentobarbital**
 local intraparenchymal, effects on intracranial hypertension (OA) [Hayashi, Kobayashi, Kawano, Handa & Kabuto], 758
- propofol**
 effect on adrenocortical steroidogenesis (CR) [Fragen, Weiss & Molteni], 839
- sufentanil**
 bradycardia following (CO) [Sherman, Lebowitz & Street], 106
 myocardial circulatory and metabolic effects of, during coronary artery surgery (OA) [O'Young, Mastrocostopoulos, Hilgenberg, Palacios, Kyritsis & Lappas], 653
 and nitrous oxide, in comparative study in patients without cardiac disease (OA) [Clark, Meuleman, Liu, Zwanikken, Pace & Stanley], 130
- thiopental**
 allergy to, periorbital edema in, after atracurium (CR) [Cohen & Frank], 431
 effect on adrenocortical steroidogenesis (CR) [Fragen, Weiss & Molteni], 839
 hepatic oxygen supply and consumption in rats exposed to, in presence of hypoxia (OA) [Matsumoto, Rorie & Van Dyke], 337
 in study of cerebral protective effects of isoflurane during temporary focal ischemia (OA) [Nehls, Todd, Spetzler, Drummond, Thompson, Johnson, Mendenhall, Barstow, Carmichael, Young, Fifield & Jones], 453
 in study of isoflurane and aggravation of regional cerebral ischemia (EV) [Michenfelder], 451
- local**
- bupivacaine**
 action of, on natural spike activity in aortic nerve of cats (LR) [Lipfert, Seitz & Arndt], 210
 chronic subarachnoid infusion of, effect in dogs (EV) [Coombs & Fratkan], 724
 chronic subarachnoid infusion of, effect in dogs (OA) [Kroin, McCarthy, Penn, Kerns & Ivankovich], 737
 clearance, propranolol reduces (OA) [Bowdle, Freund & Slatery], 36
 continuous epidural, influence on second stage of labor/delivery method in nulliparous women (OA) [Chestnut, Vandewalker, Owen, Bates & Choi], 774
 in epidural anesthesia in children (CO) [Dalens & Haberer], 714
 in epidural anesthesia in children (CO) [Ecoffey], 715
 intrapleural, for post-thoracotomy analgesia (CO) [Lee & Abram], 586
 left ventricular function during, in patients with and without angina pectoris (OA) [Baron, Coriat, Mundler, Fauchet, Bousseau & Viars], 621
- conduction block**
 studies of local anesthetic action on (LR) [Lipfert, Seitz & Arndt], 210
- etidocaine**
 in epidural anesthesia in children (CO) [Dalens & Haberer], 714
 in epidural anesthesia in children (CO) [Ecoffey], 715
- lidocaine**
 effect on asphyxial responses in mature fetal lamb (OA) [Mori-

- shima, Santos, Pedersen, Finster, Tsuji, Hiraoka, Arthur & Covino], 502
- pH-adjusted, does not "sting" (CO) [Korbon, Hurley & Williams], 855
- mepivacaine**
- in study of hemodynamic effects of dopamine during thoracic epidural analgesia in man (OA) [Lundberg, Norgren, Thomson & Werner], 641
- natural spike activity**
- studies of local anesthetic action on (LR) [Lipfert, Seitz & Arndt], 210
- plain**
- test dose, maternal heart rate changes with (CO) [Moore, Batra, Bridenbaugh, Brown, Carpenter, Hecker & Ramsey], 854
- procaine**
- action of, on natural spike activity in aortic nerve of cats (LR) [Lipfert, Seitz & Arndt], 210
- toxicity**
- in reduction of clearance by propranolol (OA) [Bowdle, Freund & Slattery], 36
- volatile**
- anesthetic-induced respiratory depression**
- effects of, on medullary inspiratory neurons of cat (OA) [Tabatabai, Kitahata, Yuge, Matsumoto & Collins], 176
- enflurane**
- and calcium blocking drugs, interaction between, in chronically instrumented dogs (OA) [Merin, Chelly, Hysing, Rogers, Dlewati, Hartley, Abernethy & Doursout], 140
- calcium channel blocking drugs and: is drug interaction beneficial or detrimental? (EV) [Merin], 111
- in comparative study of effects on brain glucose metabolism in rats (LR) [Kofke, Hawkins, Davis & Biebuyck], 810
- effect of streptozotocin-induced diabetes in rat on metabolism of (OA) [Pantuck, Pantuck & Conney], 24
- effects on somatosensory evoked potentials during nitrous oxide anesthesia (OA) [Pathak, Ammadio, Kalamchi, Scoles, Shaffer & Mackay], 753
- hepatic oxygen supply and consumption in rats exposed to, in presence of hypoxia (OA) [Matsumoto, Rorie & Van Dyke], 337
- neostigmine antagonism of vecuronium paralysis during (CR) [Dernovoi, Agoston, Barvais, Baurain, Lefebvre & d'Holander], 698
- in study of isoflurane-induced failure of Bentley-10 oxygenator (CO) [Maltry & Eggers], 100
- halothane**
- actions of verapamil or diltiazem in combination with propranolol during (OA) [Kapur, Matarazzo, Fung & Sullivan], 122
- actions on hypoxic pulmonary vasoconstriction (OA) [Marshall, Kim & Marshall], 537
- and calcium blocking drugs, interaction between, in chronically instrumented dogs (OA) [Merin, Chelly, Hysing, Rogers, Dlewati, Hartley, Abernethy & Doursout], 140
- calcium channel blocking drugs and: is drug interaction beneficial or detrimental? (EV) [Merin], 111
- in comparative study of effects on brain glucose metabolism in rats (LR) [Kofke, Hawkins, Davis & Biebuyck], 810
- contracture responses, and predictors of malignant hyperthermia susceptibility (LR) [Nagarajan, Fishbein, Muldoon & Pezeshkpour], 680
- coronary vasodilation by, versus by isoflurane (OA) [Bollen, Tinker & Hermsmeyer], 748
- and drug serum protein binding (CO) [Chelly & Merin], 710
- and drug serum protein binding (CO) [Dale & Nilsen], 709
- effect of streptozotocin-induced diabetes in rat on metabolism of (OA) [Pantuck, Pantuck & Conney], 24
- effects of, on medullary inspiratory neurons of cat (OA) [Tabatabai, Kitahata, Yuge, Matsumoto & Collins], 176
- effects on somatosensory evoked potentials during nitrous oxide anesthesia (OA) [Pathak, Ammadio, Kalamchi, Scoles, Shaffer & Mackay], 753
- hepatic oxygen supply and consumption in rats exposed to, in presence of hypoxia (OA) [Matsumoto, Rorie & Van Dyke], 337
- inhibition of *d*-tubocurarine-induced histamine release by (OA) [Kettlekamp, Austin, Downes, Cheek & Hirschman], 666
- neostigmine antagonism of vecuronium paralysis during (CR) [Dernovoi, Agoston, Barvais, Baurain, Lefebvre & d'Holander], 698
- selectively attenuates α_2 -adrenoceptor mediated vasoconstriction (OA) [Larach, Schuler, Derr, Larach, Hensley & Zelis], 781
- in study of isoflurane-induced failure of Bentley-10 oxygenator (CO) [Maltry & Eggers], 100
- isoflurane**
- allergy to, periorbital edema in, after atracurium (CR) [Cohen & Frank], 431
- amrinone, verapamil, and propranolol during anesthesia with (OA) [Makela & Kapur], 792
- and anesthetic effects of naloxone therapy in spinal trauma (CR) [Benthuyssen], 238
- and barbiturates, cerebral protective effects of, compared, during temporary focal ischemia (OA) [Nehls, Todd, Spetzler, Drummond, Thompson, Johnson, Mendenhall, Barstow, Carmichael, Young, Fifield & Jones], 453
- and calcium blocking drugs, interaction between, in chronically instrumented dogs (OA) [Merin, Chelly, Hysing, Rogers, Dlewati, Hartley, Abernethy & Doursout], 140
- calcium channel blocking drugs and: is drug interaction beneficial or detrimental? (EV) [Merin], 111
- causes regional myocardial dysfunction in dogs with critical coronary artery stenosis (OA) [Priebe & Foëx], 293
- cerebral blood flow and metabolic rate of oxygen during (OA) [Madsen, Cold, Hansen & Bardrum], 332
- in comparative study of effects on brain glucose metabolism in rats (LR) [Kofke, Hawkins, Davis & Biebuyck], 810
- coronary vasodilation by, versus by halothane (OA) [Bollen, Tinker & Hermsmeyer], 748
- critical regional cerebral blood flow during (OA) [Messick, Casement, Sharbrough, Milde, Michenfelder & Sundt], 344
- differential effects of, on human median nerve somatosensory evoked potentials (OA) [Samra, Vanderzant, Domer & Sackellares], 29
- differential effects of, on ventricular performances and hemodynamics in dog (OA) [Priebe], 262
- and diltiazem, cardiovascular and electrophysiologic interactions between, in dog (OA) [Priebe & Skarvan], 114
- effect of streptozotocin-induced diabetes in rat on metabolism of (OA) [Pantuck, Pantuck & Conney], 24
- effects on coronary arteries and coronary arterioles in intact dog (OA) [Sill, Bove, Nugent, Blaise, Dewey & Grabau], 273
- effects on somatosensory evoked potentials during nitrous oxide anesthesia (OA) [Pathak, Ammadio, Kalamchi, Scoles, Shaffer & Mackay], 753
- hemodynamic response to, and hypertension (OA) [Seyde, Durieux & Longnecker], 798
- hepatic oxygen supply and consumption in rats exposed to, in

- presence of hypoxia (OA) [Matsumoto, Rorie & Van Dyke], 337
- in hypoxia-induced pulmonary vasoconstriction in human lung (OA) [Carlsson, Bindeslev & Hedenstierna], 312
- induced failure of Bentley-10 oxygenator (CO) [Maltry & Eggers], 100
- induces coronary steal in canine model of chronic coronary occlusion (OA) [Buffington, Romson, Levine, Duttlinger & Huang], 280
- is it dangerous for patient with coronary artery disease? (EV) [Becker], 259
- does it aggravate regional cerebral ischemia? (EV) [Michenfelder], 451
- myocardial circulatory and metabolic effects of, during coronary artery surgery (OA) [O'Young, Mastrocostopoulos, Hilgenberg, Palacios, Kyritsis & Lappas], 653
- neostigmine antagonism of vecuronium paralysis during (CR) [Dernovoi, Agoston, Barvais, Baurain, Lefebvre & d'Hollander], 698
- in study of esmolol in patients undergoing coronary artery bypass surgery (CR) [Harrison, Ralley, Wynands, Robbins, Sami, Ripley & Fullerton], 413
- methoxyflurane**
effect of streptozotocin-induced diabetes in rat on metabolism of (OA) [Pantuck, Pantuck & Conney], 24
- sevoflurane**
minimum alveolar concentration of, in humans (OA) [Katoh & Ikeda], 301

Monitoring

$\text{S}\bar{\text{v}}_{\text{O}_2}$

and *in vivo* comparison of two mixed venous saturation catheters (LR) [Gettinger, DeTraglia & Glass], 373

blood pressure

and arterial waveforms and systemic vascular resistance: is there a correlation? (CR) [Gerber, Hines & Barash], 823

in femoral artery evaluation in pediatric patients (CR) [Glenski, Beynen & Brady], 227

cardiac output

and arterial waveforms and systemic vascular resistance: is there a correlation? (CR) [Gerber, Hines & Barash], 823

central venous pressure

in pediatric cardiac patients (CR) [Damen], 558

Doppler ultrasound

precordial, during cesarean delivery (CR) [Malinow, Naulty, Hunt, Datta & Osheimer], 816

ECG

of mother and fetus during epidural anesthesia (CO) [Van Zundert, Vaes & De Wolf], 584

electroencephalography

and cerebral blood flow for detection of ischemia (CR) [Spackman, Faust, Cucchiara & Sharbrough], 229

effect of epoch length on power spectrum analysis of (OA) [Levy], 489

in study of cerebral protective effects of isoflurane and barbiturates during temporary focal ischemia (OA) [Nehls, Todd, Spetzler, Drummond, Thompson, Johnson, Mendenhall, Barstow, Carmichael, Young, Fifield & Jones], 453

in study of whether isoflurane aggravates regional cerebral ischemia (EV) [Michenfelder], 451

end-tidal carbon dioxide

unusual waveform in (CO) [Martin, Zupan & Benumof], 712

in evaluation of postoperative apnea in preterm infants (OA) [Kurth, Spitzer, Broennie & Downes], 483

evoked potentials

in study of cerebral protective effects of isoflurane and barbiturates during temporary focal ischemia (OA) [Nehls, Todd, Spetzler, Drummond, Thompson, Johnson, Mendenhall, Barstow, Carmichael, Young, Fifield & Jones], 453

in study of whether isoflurane aggravates regional cerebral ischemia (EV) [Michenfelder], 451

fetus

ECG during epidural anesthesia (CO) [Van Zundert, Vaes & De Wolf], 584

Holter

and ultra short-acting adrenergic blocker in patients undergoing coronary artery bypass surgery (CR) [Harrison, Ralley, Wynands, Robbins, Sami, Ripley & Fullerton], 413

mixed venous saturation

and *in vivo* comparison of two mixed venous saturation catheters (LR) [Gettinger, DeTraglia & Glass], 373

monaural stethoscope

earpiece, elastic foamed polymer earplug as (CO) [Yamashita], 447

nerve

in evaluation of neuromuscular blockade caused by vecuronium using posttetanic count (CR) [Muchhal, Viby-Mogensen, Fernando, Tamilarasan, Bonsu & Lambourne], 846

oxygen

simple method of (CO) [Roberts & DeLeo], 717

in study of carbon monoxide inhalation (LR) [Barker & Tremper], 677

posttetanic count

in evaluation of intense neuromuscular blockade caused by vecuronium (CR) [Muchhal, Viby-Mogensen, Fernando, Tamilarasan, Bonsu & Lambourne], 846

pulmonary artery pressure

aberrant insertion of catheter in, through defect in introducer sheath (CO) [Mantia & Pagan], 714

pulse oximetry

reusing Nellcor probe in: is it worth the savings? (CO) [Racys & Nahrwold], 713

roentgenograms

and dependency on "monitoring gadgets" (CO) [Pickard], 704

and dependency on "monitoring gadgets" (CO) [Stevens], 703

somatosensory evoked potentials

differential effects of isoflurane on (OA) [Samra, Vanderzant, Domer & Sackellares], 29

and volatile anesthetics during nitrous oxide anesthesia (OA) [Pathak, Amadio, Kalamchi, Scoles, Shaffer & Mackay], 753

stethoscopy

for monitoring bilateral breath sounds (CO) [Schwartz], 711

stimulator

in evaluation of neuromuscular blockade caused by vecuronium using posttetanic count (CR) [Muchhal, Viby-Mogensen, Fernando, Tamilarasan, Bonsu & Lambourne], 846

temperature, See under Temperature

train-of-four

in evaluation of neuromuscular blockade caused by vecuronium using posttetanic count (CR) [Muchhal, Viby-Mogensen, Fernando, Tamilarasan, Bonsu & Lambourne], 846

response curves for edrophonium, neostigmine, and pyridostigmine after pancuronium and *d*-tubocurarine (OA) [Donati, McCarroll, Antzaka, McCready & Bevan], 471

transesophageal two-dimensional echocardiography

intraoperative, evaluation of (LR) [Abel, Nishimura, Callahan, Rehder, Ilstrup & Tajik], 64

Monitors, See under Equipment

Morphine

intrathecal, *See under Anesthetic techniques*

Morphine, See under Analgesics; Anesthetics, intravenous; Pharmacokinetics

Multiple sclerosis

intrathecal morphine with combined spinal and general anesthesia in (CR) [Berger & Ontell], 400

Muscle

calcium uptake

in prediction of malignant hyperthermia susceptibility (LR) [Nagarajan, Fishbein, Muldoon & Pezeshkpour], 680

contracture tests

in prediction of malignant hyperthermia susceptibility (LR) [Nagarajan, Fishbein, Muldoon & Pezeshkpour], 680

frozen biopsy specimen

in prediction of malignant hyperthermia susceptibility (LR) [Nagarajan, Fishbein, Muldoon & Pezeshkpour], 680

sarcoplasmic reticulum

in prediction of malignant hyperthermia susceptibility (LR) [Nagarajan, Fishbein, Muldoon & Pezeshkpour], 680

skeletal

diaphragm

contributions to ventilation, effects of barbiturate anesthesia on (OA) [Bickler, Dueck & Prutow], 147

intercostals

contributions to ventilation, effects of barbiturate anesthesia on (OA) [Bickler, Dueck & Prutow], 147

Muscle relaxants, *See under* Neuromuscular relaxants

Muscle rigidity, *See under* Behavioral effects

Muscle, skeletal

clonus

post-anesthetic, simple and effective method for stopping (CO) [Azzam], 98

hyperactivity

post-anesthetic, simple and effective method for stopping (CO) [Azzam], 98

Muscle tone

respiratory, *See under* Lung(s)

Myocardial blood flow, *See under* Heart

Myocardial contractility, *See under* Heart

Myocardial function, *See under* Heart

Myocardial ischemia, *See under* Heart

Myocardial performance, regional, *See under* Heart

Myocardial revascularization, *See under* Heart

N

Naloxone, *See under* Antagonists, narcotic

Narcotics, *See under* Anesthetics, intravenous

Natural spike activity, *See under* Anesthetics, local

Nausea, *See under* Gastrointestinal tract

Nd-YAG laser, *See under* Equipment

Nebulizers, *See under* Equipment

Needles, *See under* Equipment

Neostigmine, *See under* Antagonists, neuromuscular relaxants

Nerve(s)

Charcot-Marie-Tooth disease

anesthetic management for cesarean section in (CR) [Brian, Boyles, Quirk & Clark], 410

median

evoked potentials

differential effects of isoflurane on (OA) [Samra, Vanderzant, Domer & Sackellares], 29

postherpetic neuralgia

no prophylactic effect of early sympathetic blockade on (CR) [Yanagida, Suwa & Corssen], 73

reflex sympathetic dystrophy

cervical epidural steroids in (CR) [Dirksen, Rutgers & Coolen], 71

Neuromuscular disorders, *See under* Complications

Neuromuscular junction

acetylcholine receptors

concentration, measurement of, in skeletal muscle in multiple sclerosis and resistance to atracurium (CR) [Brett, Schmidt, Gage, Scharrel & Poppers], 837

Neuromuscular relaxants

alcuronium

unequal effects of cardiopulmonary bypass-induced hypothermia on neuromuscular blockade from constant infusion of (CR) [Buzello, Schluermann, Pollmaecher & Spillner], 892

allergic reactions to (CO) [Hirshman & Adkinson], 577

atracurium

accelerated reversal of blockade, with priming doses of edrophonium (CR) [Naguib, Abdulatif & Absood], 397

comparison of cutaneous and *in vitro* histamine release by (LR)

[North, Kettelkamp & Hirshman], 543

elimination of, in humans (CO) [Fisher], 96

elimination of, in humans (CO) [Nigrovic], 95

neuromuscular blockade of, in complete absence of plasma cholinesterase activity (CR) [Baraka], 80

for open eye injuries (CO) [Ivankovich], 580

for open eye injuries (CO) [Warner], 579

periorbital edema after (CR) [Cohen & Frank], 431

resistance to, in multiple sclerosis, measurement of acetylcholine receptor concentration in skeletal muscle in (CR) [Brett, Schmidt, Gage, Scharrel & Poppers], 837

value for organ-related clearance of (CO) [Fisher & Sheiner], 103

value for organ-related clearance of (CO) [Ward], 102

dantrolene

prophylaxis and neuromuscular disorders (CO) [Mora & Eissenkraft], 702

prophylaxis and neuromuscular disorders (CO) [Watson & Norfleet], 702

d-tubocurarine

cerebrovascular effects of, in rat (OA) [Vesely, Hoffman, Gil, Albrecht & Miletich], 519

comparison of cutaneous and *in vitro* histamine release by (LR) [North, Kettelkamp & Hirshman], 543

dose-response curves for edrophonium, neostigmine, and pyridostigmine after (OA) [Donati, McCarroll, Antzaka, McCready & Bevan], 471

histamine release induced by, inhibition of, by halothane (OA) [Kettlekamp, Austin, Downes, Cheek & Hirschman], 666

unequal effects of cardiopulmonary bypass-induced hypothermia on neuromuscular blockade from constant infusion of (CR) [Buzello, Schluermann, Pollmaecher & Spillner], 892

measurement of response

accelerated reversal of blockade, with priming doses of edrophonium (CR) [Naguib, Abdulatif & Absood], 397

pancuronium

cerebrovascular effects of, in rat (OA) [Vesely, Hoffman, Gil, Albrecht & Miletich], 519

dose-response curves for edrophonium, neostigmine, and pyridostigmine after (OA) [Donati, McCarroll, Antzaka, McCready & Bevan], 471

resistance to, in patients receiving carbamazepine (CR) [Roth & Ebrahim], 691

unequal effects of cardiopulmonary bypass-induced hypothermia on neuromuscular blockade from constant infusion of (CR) [Buzello, Schluermann, Pollmaecher & Spillner], 892

succinylcholine

neuromuscular blockade of, in complete absence of plasma cholinesterase activity (CR) [Baraka], 80

vecuronium

comparison of cutaneous and *in vitro* histamine release by (LR) [North, Kettelkamp & Hirshman], 543

neuromuscular blockade caused by, evaluation of, using posttitanic count (CR) [Muchhal, Viby-Mogensen, Fernando, Tamilarasan, Bonsu & Lambourne], 846

paralysis, during fentanyl, halothane, isoflurane, and enflurane anesthesia, neostigmine antagonism of (CR) [Dernovoi, Agoston, Barvais, Baurain, Lefebvre & d'Hollander], 698

and sufentanil, bradycardia following (CO) [Sherman, Lebowitz & Street], 106

unequal effects of cardiopulmonary bypass-induced hypothermia on neuromuscular blockade from constant infusion of (CR) [Buzello, Schluermann, Pollmaecher & Spillner], 892

Neuromuscular transmission

nerve

and blockade caused by vecuronium, evaluation by posttitanic count (CR) [Muchhal, Viby-Mogensen, Fernando, Tamilarasan, Bonsu & Lambourne], 846

 Surgery
 cardiac
 cardiovascular bypass
 heparin resistance prior to (CO) [Anderson], 850
 heparin resistance prior to (CO) [Breitmeyer & Rutledge], 850
 esmolol in patients undergoing (CR) [Harrison, Ralley, Wynands, Robbins, Sami, Ripley & Fullerton], 413
 and pharmacokinetics of esmolol (OA) [deBruijn, Reves, Croughwell, Clements & Drissel], 323
 cardiopulmonary bypass
 hypothermia induced by, unequal effects of, on neuromuscular blockade from constant infusion of neuromuscular relaxants (CR) [Buzello, Schluermann, Pollmaecher & Spillner], 892
 near catastrophic oxygenator failure during (CO) [Cooper & Levin], 101
 carotid
 critical regional cerebral blood flow during isoflurane anesthesia

for (OA) [Messick, Casement, Sharbrough, Milde, Michenfelder & Sundt], 344
 carotid endarterectomy
 EEG analysis for, the cerebral blood flow for detection of ischemia (CR) [Spackman, Faust, Cucchiara & Sharbrough], 229
 cerebrovascular
 does isoflurane aggravate regional cerebral ischemia during (EV) [Michenfelder], 451
 temporary focal ischemia, comparison of cerebral protective effects of isoflurane and barbiturates during (OA) [Nehls, Todd, Spetzler, Drummond, Thompson, Johnson, Mendenhall, Barstow, Carmichael, Young, Fifield & Jones], 453
 extracorporeal shock-wave lithotripsy
 hyperthermia as complication of (CR) [Higgins, Miller & Roberts], 389
 laser resections
 of tracheal tumors
 rigid bronchoscope for (CO) [Grant, White & Brand], 575
 neurosurgery
 hepatastarch coagulopathy and (CO) [Cully, Larson & Silverberg], 706
 nitrous oxide during closure of dura and cranium is not indicated in (CO) [Artru], 719
 nitrous oxide during closure of dura and cranium is not indicated in (CO) [Shaken, Shapiro & Drummond], 720
 outpatients
 fasted, effects of fluid therapy on serum glucose levels (CR) [Doze & White], 223
 pediatric
 postoperative apnea following, in preterm infants (OA) [Kurth, Spitzer, Broennie & Downes], 483
 pheochromocytoma
 verapamil may not be drug of choice for control of hemodynamic changes during (CO) [Baraka, Usta, Yamut & Haroun], 705
 postoperative morbidity
 and epidural anesthesia in high-risk surgical patients (EV) [McPeck], 723
 and epidural anesthesia in high-risk surgical patients (OA) [Yeager, Glass, Neff & Brinck-Johnsen], 729
 scoliosis
 effects of volatile anesthetics on somatosensory evoked potentials during nitrous oxide anesthesia during (OA) [Pathak, Amadio, Kalamchi, Scoles, Shaffer & Mackay], 753
 thoracic
 bronchial obstruction and hypoxia during one-lung ventilation (CR) [Maguire & Spiro], 830
 hemodynamic compromise during, presentation and solution for (CR) [Wall, Pass & McDonald], 566
 in thoracopagus conjoined twins (CR) [Hoshina, Tanaka, Obara & Iwai], 424
 vascular
 critical regional cerebral blood flow during isoflurane anesthesia for (OA) [Messick, Casement, Sharbrough, Milde, Michenfelder & Sundt], 344
 Surgical anesthesia, *See under* Anesthesia
 SvO₂, *See under* Monitoring
 Sympathetic block, *See under* Anesthetic techniques
 Sympathetic nervous system
 alpha adrenergic receptors
 halothane vasodilation and (OA) [Larach, Schuler, Derr, Larach, Hensley & Zelis], 781

- agonist**
epidural clonidine produces antinociception, but not hypotension, in sheep (OA) [Eisenach, Dewan, Rose & Angelo], 496
- alpha₁- and alpha₂-adrenergic receptors**
halothane vasodilation and (OA) [Larach, Schuler, Derr, Larach, Hensley & Zelis], 781
- amiodarone**
anesthetic management of parturient receiving (CR) [Koblin, Romanoff, Martin, Hensley, Larach, Stauffer & Luck], 551
- angiotensin II**
in study of actions of halothane, ibuprofen and BW755C on hypoxic pulmonary vasoconstriction (OA) [Marshall, Kim & Marshall], 537
- beta adrenergic blockade**
actions of verapamil or diltiazem in combination with, during halothane anesthesia in dog (OA) [Kapur, Matarazzo, Fung & Sullivan], 122
- esmolol**
pharmacokinetics of, in anesthetized patients (OA) [deBuijn, Reves, Croughwell, Clements & Drissel], 323
- calcium channel blockers**
noncardiac surgery with, prevention of intraoperative myocardial ischemia during (CR) [Godet, Coriat, Baron, Bertrand, Diquet, Sebag & Viars], 241
- carcinoid syndrome**
during anesthesia: treatment with somatostatin analogue (CR) [Marsh, Martin, Kvols, Gracey, Warner, Warner & Moertel], 89
- catecholamines**
in comparative study of sufentanil-N₂O and fentanyl-N₂O in patients without cardiac disease (OA) [Clark, Meuleman, Liu, Zwanikken, Pace & Stanley], 130
- dopamine**
cardiovascular effects, during thoracic epidural analgesia in man (OA) [Lundberg, Norgren, Thomson & Werner], 641
in comparative study of sufentanil-N₂O and fentanyl-N₂O in patients without cardiac disease (OA) [Clark, Meuleman, Liu, Zwanikken, Pace & Stanley], 130
pulmonary hemodynamic response to, in hyperoxic and hypoxic dogs (OA) [Lejeune, Leeman, Deloof & Naeije], 49
- epinephrine**
in comparative study of sufentanil-N₂O and fentanyl-N₂O in patients without cardiac disease (OA) [Clark, Meuleman, Liu, Zwanikken, Pace & Stanley], 130
following etomidate, midazolam or methohexital for minor surgery (OA) [Crozier, Beck, Schlaeger, Wuttke & Kettler], 628
and hemodynamic effects of dopamine during thoracic epidural analgesia in man (OA) [Lundberg, Norgren, Thomson & Werner], 641
is unsafe in preeclamptic patient (CO) [Costin & Milliken], 99
is unsafe in preeclamptic patient (CO) [Heller & Goodman], 99
limitations of, as marker of intravascular injection in laboring women (CR) [Leighton, Norris, Sosis, Epstein, Chayen & Larijani], 688
and obstetric test dose (CO) [Cartwright], 572
and obstetric test dose (CO) [Chadwick, Benedetti, Ready & Williams], 571
and obstetric test dose (CO) [Oyston & Prince], 571
should not be used with local anesthetics for epidural anesthesia in pre-eclampsia (CO) [Heller], 578
should not be used with local anesthetics for epidural anesthesia in pre-eclampsia (CO) [Robinson], 577
- stress and (CO) [Ossey & McIntyre], 443
test dose, maternal heart rate changes with (CO) [Moore, Batra, Bridenbaugh, Brown, Carpenter, Hecker & Ramsey], 854
- norepinephrine**
in comparative study of sufentanil-N₂O and fentanyl-N₂O in patients without cardiac disease (OA) [Clark, Meuleman, Liu, Zwanikken, Pace & Stanley], 130
following etomidate, midazolam or methohexital for minor surgery (OA) [Crozier, Beck, Schlaeger, Wuttke & Kettler], 628
and hemodynamic effects of dopamine during thoracic epidural analgesia in man (OA) [Lundberg, Norgren, Thomson & Werner], 641
stress and (CO) [Ossey & McIntyre], 443
- clonidine**
epidural, produces antinociception, but not hypotension, in sheep (OA) [Eisenach, Dewan, Rose & Angelo], 496
- diltiazem**
noncardiac surgery with, prevention of intraoperative myocardial ischemia during (CR) [Godet, Coriat, Baron, Bertrand, Diquet, Sebag & Viars], 241
- dobutamine**
pulmonary hemodynamic response to, in hyperoxic and hypoxic dogs (OA) [Lejeune, Leeman, Deloof & Naeije], 49
- propranolol**
actions of verapamil or diltiazem in combination with, during halothane anesthesia in dog (OA) [Kapur, Matarazzo, Fung & Sullivan], 122
- somatostatin analogue**
in treatment of carcinoid crisis during anesthesia (CR) [Marsh, Martin, Kvols, Gracey, Warner, Warner & Moertel], 89
- sympatholytic agents**
and anesthetic management of parturient receiving amiodarone (CR) [Koblin, Romanoff, Martin, Hensley, Larach, Stauffer & Luck], 551
- sympathomimetic agents**
ephedrine
effect on uterine blood flow velocity in pregnant guinea pig subjected to terbutaline and acute hemorrhage (OA) [Chestnut, Weiner, Wang, Herrig & Martin], 508
phenylephrine
in study of α_2 -adrenoceptor mediated vasoconstriction (OA) [Larach, Schuler, Derr, Larach, Hensley & Zelis], 781
- Sympatholytic agents, See under Sympathetic nervous system**
Sympathomimetic agents, See under Sympathetic nervous system
Syringe(s), See under Equipment

T

T-cell lymphotropic virus, *See under Infection*

Temperature

hypothermia

cardiopulmonary bypass-induced, unequal effects of, on neuromuscular blockade from constant infusion of neuromuscular relaxants (CR) [Buzello, Schluermann, Pollmaecher & Spillner], 892

and intraocular pressure changes during muscular hyperactivity after general anesthesia (CR) [Mahajan, Grover, Sharma & Singh], 419

monitoring
and inhibition of postanesthetic shivering with radiant heat (CR) [Sharkey, Lipton, Murphy & Giesecke], 249

regulation
and inhibition of postanesthetic shivering with radiant heat (CR) [Sharkey, Lipton, Murphy & Giesecke], 249

trunk skin, after sympathetic nerve block (CO) [Chamberlain], 446

trunk skin, after sympathetic nerve block (CO) [Peters], 444

Tension of oxygen, *See under* Oxygen

Tension pneumocephalus, *See under* Complications

Terbutaline, *See under* Tocolytic agents

Test dose, *See under* Anesthetic techniques

Tetanus, *See under* Infection

Theories of anesthesia

lipid solubility
anesthetic potencies of secondary alcohol enantiomers (OA) [Alifimoff, Firestone & Miller], 55

Thermography, *See under* Measurement techniques

Thermostimulation, *See under* Pain

Thiopental, *See under* Anesthetics, intravenous

Thoracic anesthesia, *See under* Anesthesia

Thoracic dystrophy, asphyxiating, *See under* Anesthesia, pediatric

Thoracic epidural anesthesia, *See under* Anesthetics, local

Thoracic surgery, *See under* Surgery

Thrombelastography, *See under* Measurement techniques

Thrombocytopenia, *See under* Complications

Thromboxane, *See under* Immunology

Tocolytic agents

terbutaline
effect of ephedrine on uterine blood flow velocity in pregnant guinea pig (OA) [Chestnut, Weiner, Wang, Herrig & Martin], 508

Touhy-Schliff needle, *See under* Equipment

Tourniquet, *See under* Equipment

Toxicity

carcinogenicity
of nitrous oxide (CO) [Baden & Mazze], 256
of nitrous oxide (CO) [Frankel], 256

cyanide
in vitro cyanide release from sodium nitroprusside (LR) [Ikeda, Schweiss, Frank & Homan], 381

glucose
effects of dextrose infusion and head position on, after complete cerebral ischemia (OA) [Lanier, Stangland, Scheithauer, Milde & Michenfelder], 39

sodium nitroprusside
in vitro cyanide release from (LR) [Ikeda, Schweiss, Frank & Homan], 381

Toxicology
and scented masks in pediatric anesthesia (CO) [Hinkle], 104
and scented masks in pediatric anesthesia (CO) [Yamashita & Murata], 105

Trachea, *See under* Airway

Tracheal intubation, *See under* Intubation

Tracheal stenosis, *See under* Airway

Train-of-four, *See under* Monitoring; Neuromuscular transmission

Transcutaneous oxygen tension, *See under* Measurement techniques

Transesophageal echocardiography, *See under* Measurement techniques

Transesophageal two-dimensional echocardiography, *See under* Monitoring

Transtacheal ventilation, *See under* Anesthetic techniques

Tubes, *See under* Equipment

d-Tubocurarine, *See under* Neuromuscular relaxants

U

Underwater seal, *See under* Equipment

Urine

glucose
in fasted outpatients, effects of fluid therapy (CR) [Doze & White], 223

Uterus

blood flow

velocity
effect of ephedrine on, in pregnant guinea pig subjected to terbutaline infusion and acute hemorrhage (OA) [Chestnut, Weiner, Wang, Herrig & Martin], 508

V

Vascular capacitance, *See under* Blood vessels

Vasoconstriction

hypoxic pulmonary, *See under* Lung(s)

Vasoconstriction, *See under* Blood vessels

Vasodilators, *See under* Arteries; Veins

Vasomotor center, *See under* Brain

Vasomotor instability, *See under* Brain

Vecuonium, *See under* Neuromuscular relaxants

Veins

cannulation
does not "sting" with use of pH-adjusted lidocaine (CO) [Korbon, Hurley & Williams], 855

capacitance vessels
and blood distribution under epidural anesthesia (OA) [Stanton-Hicks, Höck, Stühmeier & Arndt], 317

central venous
catheterization, in pediatric cardiac patients, risk factors associated with (CR) [Damen], 558

vasodilators
during induced hypotension in deafferented dogs (OA) [Hoka, Siker, Bosnjak & Kampine], 647

venoconstrictors
and blood distribution under epidural anesthesia (OA) [Stanton-Hicks, Höck, Stühmeier & Arndt], 317

Venoconstrictors, *See under* Veins

Ventilation

apnea
postoperative, in preterm infants (OA) [Kurth, Spitzer, Broennig & Downes], 483

artificial

resuscitation
transtracheal oxygenation, easily assembled device for (CO) [Reich & Schwartz], 437

control
and respiratory interactions of ketamine and morphine (OA) [Bourke, Malit & Smith], 153

CPAP
improvised underwater seal for, dangers of, during one-lung ventilation (CO) [Cook & Wilson], 707
during one-lung ventilation using Bain circuit (CO) [Scheller & Varvel], 708

depression
in mishaps with patient-controlled analgesia (CR) [White], 81

differential lung
tracheal divider for, in dogs (CO) [Muneyuki, Konishi, Yada & Kinoshita], 856

distribution
effects of, on lung collapse and gas exchange during general anesthesia (OA) [Tokics, Hedenstierna, Strandberg, Brismar & Lundquist], 157

drug effects

- of diazepam and hypercarbic response to carbon dioxide (CO) [Bailey, Andriano, Stanley, Pace & Goldman], 582
- of diazepam and hypercarbic response to carbon dioxide (CO) [Fee], 582

functional residual capacity

- effects of barbiturate anesthesia on (OA) [Bickler, Dueck & Prutow], 147

hypercapnia

- and effects of halothane on medullary inspiratory neurons of cat (OA) [Tabatabai, Kitahata, Yuge, Matsumoto & Collins], 176

hyperoxia

- and effects of halothane on medullary inspiratory neurons of cat (OA) [Tabatabai, Kitahata, Yuge, Matsumoto & Collins], 176

intermittent positive pressure ventilation

- fiberoptic assisted tracheal intubation under general anesthesia with (CO) [Williams], 853

mechanical

- end-tidal P_{CO_2} monitoring in infants and children during (CR) [Badgwell, Heavner, May, Goldthorn & Lerman], 405
- and relationship between invasive and noninvasive measurements of gas exchange in anesthetized infants and children (OA) [Lindahl, Yates & Hatch], 168

one-lung

- bronchial obstruction and hypoxia during (CR) [Maguire & Spiro], 830
- CPAP oxygenation during, using Bain circuit (CO) [Scheller & Varvel], 708
- dangers of using improvised underwater seal for CPAP oxygenation during (CO) [Cook & Wilson], 707

pattern of breathing

- effects of barbiturate anesthesia on (OA) [Bickler, Dueck & Prutow], 147

PEEP

- no involvement of antidiuretic hormone in acute antidiuresis

- during (OA) [Payen, Farge, Belouciet, Leviel, De La Coussaye, Carli & Wirquin], 17

phrenic nerve paralysis

- postoperative respiratory failure in (CR) [Rosett], 695

positive end-expiratory pressure

- effects of, on lung collapse and gas exchange during general anesthesia (OA) [Tokics, Hedenstierna, Strandberg, Brismar & Lundquist], 157

sleep apnea

- obstructive, in recovery room patient (CR) [Keamy, Cadieux, Kofke & Kales], 232

transtracheal, See under Anesthetic techniques

ventilation-perfusion

- effects of, on lung collapse and gas exchange during general anesthesia (OA) [Tokics, Hedenstierna, Strandberg, Brismar & Lundquist], 157

zero end-expiratory pressure

- effects of, on lung collapse and gas exchange during general anesthesia (OA) [Tokics, Hedenstierna, Strandberg, Brismar & Lundquist], 157

Ventilation-perfusion, See under Lung(s); Ventilation

Ventilatory response, See under Carbon dioxide

Ventricles, See under Heart

Verapamil, See under Anesthetic techniques, hypotension, induced; Ions; Ions, calcium blocker; Pharmacology

Vocal cords, See under Airway
